Re: new manifold on the market????

this is all i have recive

in my opinion this is the same product there se7en post in the page 1 (visual the same, same bolts, etc)

so in my opinion there is not one but several ebay stores (uk and us) seling the same, probably they have some complicit buy/sell from each other.

the only thing to prove this is to some one buy from the ebay US seller and see what it arrive home..
